

REMARKS

The specification has been amended to insert the parent history of this application and to correct some inadvertent typographical errors. Since the number or nature of the amendments to the application papers renders it difficult to consider the application, or to arrange the papers for printing or copying, a substitute specification, excluding claims, is herein requested to replace the previously filed specification pursuant to 37 CFR §1.121(3). A specification in clean form without markings is submitted as Attachment A. No new matter has been added.

Early and favorable action by the Examiner is earnestly solicited.

Respectfully Submitted,

Date: January 16, 2004
